2. After City concurrence of the plans, the project will be constructed by the State, at State's expense. The State will use color coded irrigation pipe to indicate the presence of reclaimed water, as required by law.
3. The City will provide potable or reclaimed water mains up to or within the State's right of way at the City's expense. Reclaimed water shall be Class A, or better, as defined by Arizona Administrative Code (18 A.A.C. 11, Article 3) proposed May 5, 2000.

ROAD LANDSCAPE
MAINTENANCE AGREEMENT**

Request to authorize the City Manager to enter into an intergovernmental agreement (IGA) with the Arizona Department of Transportation for landscape maintenance along the Pima Freeway from 19th Avenue to Scottsdale Road, per the Maintenance Agreement for this project.

With City concurrence, the State will design and construct the landscaping and irrigation system for the Pima Freeway within the Phoenix City limits.

The City will furnish and install necessary water services from water mains to the designated locations within the right-of-way at the State's expense and waive water development fees. The City will also furnish all water for landscape installation during the construction phase, and all water thereafter necessary to properly maintain the landscape, all at City expense.

After construction, the State will maintain the landscaping and irrigation system generally within the Control of Access, and the City will maintain the irrigation system generally outside the Control of Access, as designated on the Maintenance Exhibit.

The City's estimated annual water and maintenance costs per year are shown below:

| Total Annual Cost | \$ 301,486 | |

Citizen Notification

ADOT has held public meetings to receive citizen input on the design of the freeway, including the landscaping. The landscaping along the Pima Freeway will be comparable to other freeways in the City.

The freeway is scheduled to open in early summer 2001, with landscaping to be added shortly thereafter.
